# About Kavalan

## Pursuit of a Dream

Kavalan began with a dream; a dream of a father and son to make whisky in Taiwan. Only courage, persistence, and hard work made that dream a reality. In 2005, Taiwan's first whisky distillery was established, capable of carrying out every step of production from milling, mashing, and fermentation to distillation and maturation.

In 2010, Taiwan was listed in the Malt Whisky Yearbook as a whisky-producing region. For the first time, it ranked alongside Scotland, the US, and the UK. That year changed the frontiers of a centuries-old tradition. One of whisky's most exciting new homelands was forged.

## Born of Mother Nature

"Kavalan" takes the old name for Yilan County on Taiwan's northeast coast. The name is a symbol of gratitude to the land that gives Kavalan its life and soul. The headwaters of Yilan's ancient Snow Mountain provide Kavalan's water source. The unique atmosphere of Yilan's mountains and sea is sucked through the casks as the whisky matures. As it sleeps through

successive summers and winters, Kavalan is nurtured by Yilan's subtropical heat and invigorated by cool Pacific breezes. Unrivalled conditions for ageing whisky have created a whisky, which is taking the world by storm.

## World-Class Whisky

In its short history, Kavalan has amassed some of the industry's highest honours. These include the International Wine and Spirit Competition's (IWSC) "Distiller of the Year" and six IWSC or International Spirits Challenge "World Whisky Producer of the Year" awards. In addition, Kavalan has been recognized as the "Best World Distillery of the Year" by the Tokyo Whisky and Spirits Competition and "Distillery of the Year" by the San Francisco World Spirits Competition.

In the prestigious World Whiskies Awards, Kavalan has also taken out the top titles: the "World's Best Single Malt" in 2015 and the "World's Best Single Cask Single Malt" in 2016, remarkable achievements for a new Asian distillery.

## Perfecting a Craft

Even the oldest traditions can be challenged by innovation. When Kavalan began making whisky in Taiwan's subtropical climate, time-tested whisky techniques were adapted to the heat and humidity of a new homeland.

Using high-tech expertise, Kavalan introduced state-of-the-art, tailor-made processes and equipment to the distillery. It harnessed "science" to perfect the "art" of whisky making. All this ensures Kavalan is bottled for release only at its peak to discerning whisky drinkers across the world.

## The Passion Behind Kavalan

Every bottle of Kavalan whisky has been meticulously crafted. Each step of whisky making undergoes an exemplary level of care and attention by the blenders and coopers. From mashing the barley and spirit distillation, through to cask toasting and the whisky ripening within.

Kavalan's story is one of persistence, belief, and courage. One of the

world's best whiskies is made possible thanks to the dedication of the people who make up its story.

### **Magic in the Cask**

With its eye on producing the finest tasting whisky, Kavalan insists on extracting only the purest new

make: Smooth and rich in quality and aromatic in flavour. A singular liquor is then put to sleep in some of the world's highest quality American oak casks. Thus begins the magical process that shapes the whisky's diversity, character and complexity.

Interacting with the wood of the cask, the spirit matures and extracts a wealth of flavours from diverse casks, be they ex-bourbon, sherry, brandy, port, or wine casks. Gaining an indefinable complexity and intensity, Kavalan is exquisitely layered with exotic fruits and the sweet honey exclusive to Taiwan.

### **Pioneering a Whisky**

By breaking through the limitations of climate and overturning long-held beliefs, Kavalan succeeded in making an extraordinary whisky in an ambitious new heartland.

Now recognised around the world, Kavalan strives for perfection in every drop and a masterpiece in every bottle it delivers: An ideal marriage of science and art.

# Kavalan Solist Manzanilla Sherry Single Cask Strength Single Malt Whisky

Manzanilla is much like Fino sherry, which is produced by the sea where the conditions are even more suitable for the growing of flor. Though the maturation is the same as for the Kavalan Fino, the texture is lighter and more delicate with a touch of saltiness together with mineral flavours, which are all the consequences of a stable and thick layer of flor, sea breezes and brine.

## Colour

Swarthy golden amber

## Nose

Chock-full of mystery aroma, the same as Solist Fino with clear and charming honeydew melon. A complex and multi-layered fruity flavour along with toffee and cocoa. The end of cider, coastal, light salty.

## Palate

Balanced body. Slight salty, intense, plenty of sweetness with vanilla flavour. Orange, melon, mint are conspicuous with fresh fruit complexity.
